

JOSHUA HANSON

Frontend Developer | JavaScript | React | Web Development

Ghana · 0553212271 · joshuahanson500@gmail.com · [LinkedIn](#) · [Portfolio](#)

Frontend developer building responsive, interactive web experiences with a growing software-engineering foundation.

PROFILE

Computing-focused graduate with a Bachelor of Education in JHS Specialism (Computing) from Peki College of Education. Developing practical frontend experience with HTML, CSS, JavaScript and React, alongside Git, GitHub, Vite and modern development workflows. Interested in building usable interfaces, solving problems systematically and progressing toward broader software engineering.

TECHNICAL SKILLS

Frontend: HTML5 · CSS3 · JavaScript · React.js · Responsive Web Design

Tools: Git · GitHub · VS Code · Vite · npm

Foundations: Programming · Algorithms · Data Structures · Problem Solving

Currently developing: TypeScript · Tailwind CSS · Node.js · Backend Fundamentals

SELECTED PROJECTS

Task Manager

Built a personal task-management application to practise interactive UI development, application logic, user input and persistent browser data.

Technologies: HTML · CSS · JavaScript · Local Storage

Notes Application

Built a browser-based notes application focused on creating, editing, organizing and persisting user notes.

Technologies: HTML · CSS · JavaScript · Local Storage

Budget Tracker

Built a personal budgeting application to practise structured data entry, application logic, dynamic rendering and browser persistence.

Technologies: HTML · CSS · JavaScript · Local Storage

EXPERIENCE

National Service Teacher

National Service · May 2026 – Present · Senya Beraku, Ghana

- Support teaching and learning activities and share teaching responsibilities with educators.
- Communicate Computing and technology concepts clearly and structure practical learning activities.
- Work collaboratively and manage multiple responsibilities in a structured school environment.

EDUCATION

Bachelor of Education — JHS Specialism (Computing)

Peki College of Education · Jan 2021 – Sep 2025 · Peki, Ghana

Computing-focused teacher education combining computing knowledge, pedagogy and practical educational training.

PROFESSIONAL DEVELOPMENT

AWS Cloud Practitioner Essentials — AWS Skill Builder

Ongoing development: React.js · TypeScript · Tailwind CSS · Node.js · Data Structures & Algorithms
